DESPRE NOI

Suntem o societate cu capital integral roman infiintata in 2006, cu o experienta in domeniu de peste 10 ani. Suntem specializati pe proiectare de structuri metalice si interesul nostru este sa realizam proiecte usoare, sigure si estetice, dar tinand cont si de nevoile clientilor, de prevederile normativelor, de procesul de uzinare si de montaj, astfel incat proiectele noastre sa fie cat mai usor realizabile, reducand astfel timpul de executie si de montaj.

Procesul de proiectare se face cu programe speciale pentru modelarea spatiala a structurilor, din care generam toate desenele si listele necesare pentru uzinarea si montarea structurii.

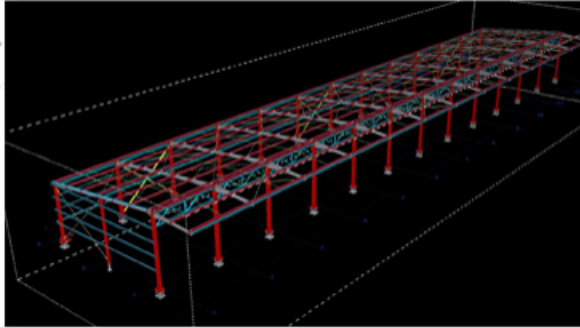

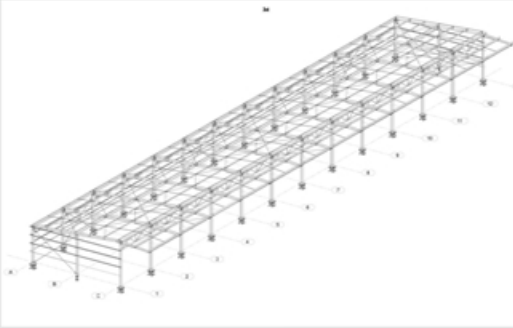

Aceste programe ne permit o mare flexibilitate si raspundem cu promptitudine la modificarile intervenite pe parcurs.

SERVICII

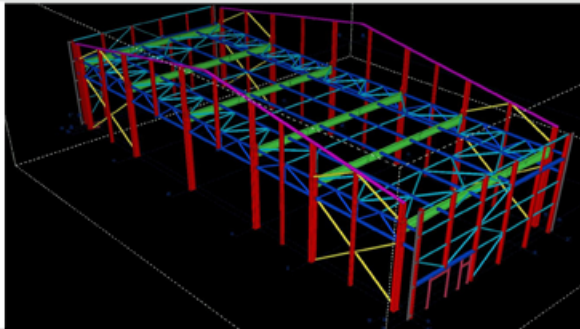

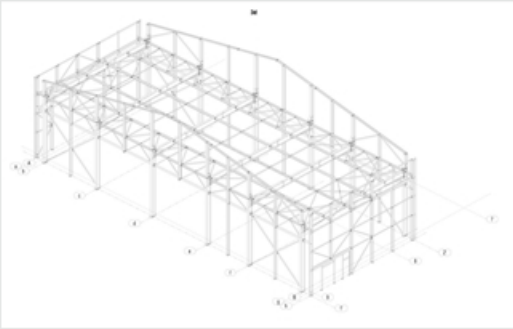

Serviciile oferite:

- Consultanta in a gasi solutia optima pentru structura de rezistenta, tinand cont de functionalitate si cost pentru clientii nostrii
- Proiectare structuri metalice principale (Hale industriale si agricole, cladiri de birouri, etc.), faze de proiectare, studii de fezabilitate (SF),
Proiect tehnic (PT), proiect tehnic cu detalii de executie (D.E)
- Proiectare structuri metalice auxiliare (platforme interioare-tehnologice, suporti utilaje, scarii, copertine etc.)
- Proiectare infrastructura (fundatii, platforme betonate, pardoseli, drumuri de acces de tonaj mic, mediu si mare, etc) – in colaborare
- Expertize constructii de beton si de metal (A1+A2) – in colaborare
